## [..]: Ecology of Peace Axis Military Necessity ICC lotto Evacuation Notice

Please find online a copy of: Notice to Nation State Supreme Court Judges & Attorney Generals of: Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America, Vatican City: ICC Private Prosecution: Request for Written Consent or Objection: Notice of 26 September 2015 Military Necessity Evacuation Lotto Pool [PDF]; which has been electronically served upon the aforementioned nations Supreme Court Judges and Attorney General [PDF].

The *Ecology of Peace Axis Military Necessity ICC lotto Evacuation* is the [military necessity](#) mutual coercion last resort option of the [Ecology of Peace NWO social contract options](#).

The first lotto is to occur on 26 September 2015; where two countries shall be selected from the aforementioned pool of twenty five countries; selected for their procreation and consumption Scarcity Combatant footprint status as the top five countries for *nominal GDP*: United States, China, Japan, Germany, United Kingdom, *GDP per capita*: Qatar, Luxembourg, Singapore, Brunei, Kuwait; *largest cities*: Brazil, South Korea, Mexico, Philippines, India; *population density*: Monaco, Vatican City, Bahrain, Malta, Netherlands; and *fertility rates*: Niger, Mali, Burundi, Somalia & Uganda.

In the subsequent two months Pentagon and Kremlin authorities shall implement the **EoP Military Necessity Mutual Coercion ICC Lotto Evacuation** in the two ICC lotto nations cities; where ½ of all the nations Lawyers, Mental Health, Organized Religion & Charity Non-profits, Media and Scarcity Combatant Extremists; who have not signed an [EoP-Axis oath](#); shall be evacuated/raptured from Planet Earth by means of military psychotronic technology. Put simply they will be given an instant heart-attack or stroke; or the simple quick and humane termination of their living organs. Their dead bodies shall not be buried in cemeteries; but dumped in former grain silo's to be converted to compost; for the [new sustainable economy \[La Proxima Economia\]](#); which shall be based upon an [Ecology of Peace international law social contract](#).

As noted: Mental Health: Psychologists & Psychiatrists are one of the 'scarcity combatant' professions; added to the *EoP Military Necessary Evacuation lotto*; who – if resident in the lotto nations – may be evacuated from the planetary genepool; in the absence of filing an EoP Axis Oath of commitment to cooperate or a legal written objection.

The professions of Lawyers, Mental Health, Organized Religion & Charity Non-profits and Media are included in addition to 'capital and breeding war scarcity combatant extremists'; for failing to educate their nation's citizens about Ecology of Peace reality facts.

Ecology of Peace Facts: 1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above [ecological carrying capacity limits](#), it results in [resource conflict](#); 4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an Ecology of Peace international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Electronic Service:

Electronic Service per email to a US citizen is lawful in terms of (I) the South African Electronic Communications and Transactions Act. 2002 (Act No. 25 of 2002) and (II) Federal Rules of Civil Procedure Rule 4(f) which allows for service “by other means not prohibited by international agreement as directed by the court,” as implemented in *Rio Properties, Inc. v. Rio Intern. Interlink*, 284 F.3d 1007 (9th Cir. 2002) which established that e-mail was an effective means of communication between parties, and that messages sent to the respondents would serve the purposes of notifying them of the pending litigation. Moreover, there is no indication that service in this manner would contravene any international agreement. Finally courts “have upheld service via e-mail, [in] cases involving e-mail addresses undisputedly connected to the defendants and that the defendants used for business purposes.” (*Ehrenfeld v. Bin Mufouz*, 2005 WL 696769 (S.D.N.Y., March 23, 2005))

A copy of this legal notice shall be added to: [Ecology of Peace Axis Military Necessity Evacuation](#): Cities Lotto Notice: Intl-Law [PDF].

Content of Electronic Service Notice:

## **[.]: Ecology of Peace Axis Military Necessity ICC lotto Evacuation Notice**

Please find online a copy of: Notice to Nation State Supreme Court Judges & Attorney Generals of: Bahrain, Brazil; Brunei, Burundi, China, Germany, India, Japan, Kuwait, Luxembourg, Mali, Malta, Mexico, Monaco, Netherlands, Niger, Philippines, Qatar, Singapore, Somalia, South Korea, Uganda, United Kingdom, United States of America, Vatican City: ICC Private Prosecution: Request for Written Consent or Objection: Notice of 26 September 2015 Military Necessity Evacuation Lotto Pool [[PDF](#)]; which has been electronically served upon the aforementioned nations Supreme Court Judges and Attorney General [[PDF](#)].

The *Ecology of Peace Axis Military Necessity ICC lotto Evacuation* is the [military necessity](#) mutual coercion last resort option of the [Ecology of Peace NWO social contract options](#).

The first lotto is to occur on 26 September 2015; where two countries shall be selected from the aforementioned pool of twenty five countries; selected for their procreation and consumption Scarcity Combatant footprint status as the top five countries for *nominal GDP*: United States, China, Japan, Germany, United Kingdom, *GDP per capita*: Qatar, Luxembourg, Singapore, Brunei, Kuwait; *largest cities*: Brazil, South Korea, Mexico, Philippines, India; *population density*: Monaco, Vatican City, Bahrain, Malta, Netherlands; and *fertility rates*: Niger, Mali, Burundi, Somalia & Uganda.

In the subsequent two months Pentagon and Kremlin authorities shall implement the **EoP Military Necessity Mutual Coercion ICC Lotto Evacuation** in the two ICC lotto nations cities; where ½ of all the nations Lawyers, Mental Health, Organized Religion & Charity Non-profits, Media and Scarcity Combatant Extremists; who have not signed an [EoP-Axis oath](#); shall be evacuated/raptured from Planet Earth by means of military psychotronic technology. Put simply they will be given an instant heart-attack or stroke; or the simple quick and humane termination of their living organs. Their dead bodies shall not be buried in cemeteries; but dumped in former grain silo's to be converted to compost; for the [new sustainable economy \[La Proxima Economia\]](#); which shall be based upon an [Ecology of Peace international law social contract](#).

As noted: Mental Health: Psychologists & Psychiatrists are one of the 'scarcity combatant' professions; added to the *EoP Military Necessary Evacuation lotto*; who – if resident in the lotto nations – may be evacuated from the planetary genepool; in the absence of filing an EoP Axis Oath of commitment to cooperate or a legal written objection.

The professions of Lawyers, Mental Health, Organized Religion & Charity Non-profits and Media are included in addition to 'capital and breeding war scarcity combatant extremists'; for failing to educate their nation's citizens about Ecology of Peace reality facts.

Ecology of Peace Facts: 1. Earth is not flat; 2. Resources are finite; 3. When humans breed or consume above [ecological carrying capacity limits](#), it results in [resource conflict](#); 4. To sustainably protect and conserve natural resources in accordance to local and national carrying capacity limits; and restrict national and international inter-cultural resource war conflict; humans must implement an Ecology of Peace international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits.

Electronic Service:

Electronic Service per email to a US citizen is lawful in terms of (I) the South African Electronic Communications and Transactions Act. 2002 (Act No. 25 of 2002) and (II) Federal Rules of Civil Procedure Rule 4(f) which allows for service "by other means not prohibited by international agreement as directed by the court," as implemented in *Rio Properties, Inc. v. Rio Intern. Interlink*, 284 F.3d 1007 (9th Cir. 2002) which established that e-mail was an effective means of communication between parties, and that messages sent to the respondents would serve the purposes of notifying them of the pending litigation. Moreover, there is no indication that service in this manner would contravene any international agreement. Finally courts "have upheld service via e-mail, [in] cases involving e-mail addresses undisputedly connected to the defendants and that the defendants used for business purposes." (*Ehrenfeld v. Bin Mufouz*, 2005 WL 696769 (S.D.N.Y., March 23, 2005))

**EoP Internet Access Re: MWeb & ISPA; EoP Corr: ICANN, IAP, Artist Taxi Driver, Spartacus, Canary, ICRAA, A Choudary**

***Restored Internet Access:***

My internet access was restored by Clive Johnstone via John Doe; in full on 11 August 2016; but is being partially restricted by me; with regard to (i) MILINT Remote Formatting Alterations; (ii) 03 July MWeb blocking of EoP Clerk email account; (iii) ISPA: EoP and WiP; or WiP only?

***MILINT Remote Formatting Alterations:***

As noted in 05 Aug 2016 1:49 correspondence : [Updates RE: MWeb Legal Dept Notice of immediate termination of Clive Johnstone ADSL account by 14:00 hrs on 05 Aug](#); there were

some remote formatting alterations to various EoP v WiP NWO negotiation documents with regard to discussions with MWeb and ISPA; presumably from NSA and/or FSB military intelligence entities; where particular paragraphs or emails had been reformatted from original black text to blue and others grey.

On subsequent days, some of those reformatted coloured paragraphs went from blue to green; and then green to orange; and another went from blue to green to turquoise; the grey one's remained grey. The observations and interpretations were updated at UJMC-SF44: [05 Aug: Remote Formatting Alterations](#).

### ***03 July MWeb blocking of email & ISPA: EoP & WiP; or WiP only:***

In the absence of MWeb reactivating the EoP Acting Clerk andreamuhrteyn email account with its password -- as detailed in EoP Applicants: MWeb [\[PDF\]](#) -- it is not possible to ascertain whether my interpretation -- that military hackers who blocked it would reinstate it; when they choose to do so -- was accurate or not.

There has been no response from ISPA clarifying whether ISPA services are for EoP and WiP culture members or WiP only; as per correspondence submitted to them on 02 August 2016 2:15 PM Re: Draft Suggestion to ISPA: Req Alt.Dispute Resolution Info: Summary of Issues in dispute with MWeb Abuse & Legal Dept; as detailed in (i) EoP: MWeb [\[PDF\]](#); (ii) EoP v WiP NWO negotiations: Comments Correspondence [\[PDF\]](#): [ISPA: Internet Service Providers Association](#).

Consequently I have not yet ordered a new email account with an alternative ISPA services provider. Instead I opened this temporary GMail email account.

I am in the process of drafting documents to submit to Magistrate Torlage; for his consideration and feedback to myself and Clive and Ann Johnstone.

### **EoP 'Only Problem left worth solving' submission to ICANN & Intn'l Association of Prosecutors**

At the time of receiving MWeb legal departments email announcing that they were terminating their account with Clive Johnstone; I was busy with preliminary research to file a submission to ICANN: Internet Corporation for Assigned Names and Numbers; copied to International Association of Prosecutors [\[PDF\]](#): General Counsel: Rasmus Wandall.

The EoP submission to ICANN submission was a suggestion to draft Internet Service Providers worldwide into cooperating to help notify their internet clients and the planets citizens of the importance of non-violently cooperating to help solve the Tragedy of the Commons inevitable nuclear war environmental collapse problem that's the only problem left that's worth solving; to implement an Ecology of Peace international law social contact:

“This tragic [— environmental collapse — at the end of which we are left without a home, having rendered Earth (our home planet) uninhabitable] outcome may not be unavoidable. And if it is not unavoidable, then that's about the only problem left that's worth solving. The solution can be almost arbitrarily expensive in both life and treasure. I would humbly suggest that it's worth all the money in the world, plus a few

billion lives, because if a solution isn't found, then that treasure and those lives are forfeit anyway. A solution for avoiding the sixth stage must be found, but I don't know what that solution would look like.”

[EoP Axis Military Necessity Evacuation](#) is the military necessity mutual coercion last resort option of the Ecology of Peace NWO social contract options. It provides a legal blueprint for how to legally, militarily, politically and economically implement an Ecology of Peace international law social contract; to enable immediate orderly and humane deindustrialization and massive depopulation measures.

EoP v WiP negotiations are updated at: [MILED Clerk Notice](#).

Multitasking issues include: Summary: EoP v WiP Negotiations; EoP v WiP Negotiations with regard to: CIA Review of: The Man Without a Face: The Unlikely Rise of Vladimir Putin by Masha Gessen and Mr. Putin: Operative in the Kremlin by Fiona Hill & Clifford Gaddy; Military Intelligence agencies human drone warfare use of Psychotronics; Authentic Environmental Activism; Global Slavery Index; Military Intelligence Agency critics; Greenpeace political necessity; Breeding war root causes of biological warfare; EoP root cause problem solving Iatrogenic biological warfare origins of AIDS submissions to SA Courts, Development Aid Ratchet Effect; Lawyers, Media, Charity Workers and Breeding/Consumption Scarcity Combatants Evacuation from the Planetary Genepool.

***Summary: EoP v WiP Negotiations:***

Ecology of Peace recommend that the ‘right to breed and consume with total disregard for ecological carrying capacity limits’ clauses of the Masonic War is Peace international law social contract be abolished and replaced with Ecology of Peace clauses that require all the worlds citizens of all races, classes and religions to procreate and consume below ecological carrying capacity limits; and any breeding or consumption cheaters be eliminated from the planetary genepool.

A detailed overview of EoP v WiP Negotiations evidentiary argument can be found in EoP Acting Clerk’s [EoP PoW’s –v– Nobel Committee & Peace Laureates et al](#): draft complaint [PDF]. A summary can be found in EoP Acting Clerk correspondence to International Criminal Court Judges [PDF: 29 Dec 2015]; which includes details of EoP procreation and consumption below ecological carrying capacity suggested clauses.

A less formal Ecology of Peace culture submission was also made to US Army Reserve Command: Ft Bragg [PDF] which clarifies EoP culture answers with regard to EoP v WiP culture issues in dispute: Revolution in Military and Legal Ethics: Defining just and unjust actions in war and military conflict: the operative question: Whom should the military kill? Put differently: In terms of [ecological overshoot](#) resource depletion [tipping points](#) and resource conflict – all nations on Earth’s national resource lifeboats are not only full; but shrinking. So now the decision is not ‘which immigrants to let in’ but ‘which citizens should be removed from the lifeboat aka national genepool. How should they be removed; how many should be removed; by whom and when should they be removed’?

According to Hill and Gaddy, Andropov saw himself as an enlightened, liberal secret policeman who emphasized the need to “work with people”—that is, to try persuade dissidents to change their minds and support the Soviet regime, but with obvious coercive threats looming in the background. They see Putin as adapting this approach to Russian politics today, trying to win through persuasion, but always ready to bring the full force of the state to bear on any opponent who does not see the wisdom of agreeing. Most notably, Putin used this method to bring the oligarchs to heel. Putin made it clear they would be allowed to make their fortunes but had to become apolitical, pay their taxes, and follow Putin’s policy line. He made it clear that their “property rights were ultimately dependent on the good will of the Kremlin,” with former oligarch Mikhail Khodorkhovskiy’s fate—a long jail term and seizure of his assets—serving as an example of what would happen to anyone who stepped out of line. It is the same method that Andropov used with dissidents, who knew that psychiatric hospitals and labor camps awaited anyone who failed to be persuaded by the KGB’s arguments.” – is referenced in New Ecology of Peace Rules or Current Masonic War is Peace No Los Pepes Rules Negotiations; as follows:

More specifically: As a former KGB agent with criticism of the KGB – "I wrote the book on the basis of my experience; because I came to understand that all the intelligence business; which was the core of the Cold War for many years was good for nothing; and the spy agencies such as the KGB inflicted more damage to their own countries; than to their supposed adversaries. So I came to understand that this is a waste of time, and of efforts and of money, big money. Sometimes it looks like comedy, but it makes allot of people very much unhappy and desperate. So my idea was to describe the truth in terms of the inner world of the KGB; as it was, as I saw it. ... Vladimir Kryuchkov is the only individual in the KGB to have achieved the rank of a four star general; and I will tell you objectively that he was the best CIA agent in the KGB. In his speech to the bankers McNamara argued that population growth was leading to instability, that a 10 billion world population would not be "controllable." Said McNamara, "It is not a world that any of us would want to live in. Is such a world inevitable? It is not sure but there are two possible ways by which a world of 10 billion people can be averted. Either the current birth rates must come down more quickly or the current death rates must go up. There is no other way." [...] In 1969 McNamara's speech to the Governors of the University of Notre Dame cited the population explosion as more significant than the danger of nuclear war. "Casting its shadow over all this scene is the mushrooming cloud of the population explosion" (page 480). McNamara extended the extraordinary thesis that "the children who were dying were fortunate, for the millions of those who lived languidly on were stunted in their bodies and cripples in their minds." – Excerpts: [Brief Overview of AIDS: Africa's Iatrogenic Depopulation Solution](#): Excerpt: [SS Defcon Theses: EoP Amicus submission \[PDF\] to Health Professions Council of South Africa v Wouter Basson](#): paragraphs 100-108.

According to Robert McNamara, Former World Bank President: "Short of nuclear war itself, population growth is the gravest issue the world faces. If we do not act, the problem will be solved by famine, riots, insurrection and war;" and President Nixon: "We must help break the link between spiralling population growth and poverty. ...Where they have been tried, family planning programs have largely worked. ...Many pro-life

advocates ...contend that to condone abortion even implicitly is morally unconscionable. Their view is morally short-sighted. ...if we provide funds for birth control ...we will prevent the conception of millions of babies who would be doomed to the devastation of poverty in the underdeveloped world.” – EoP Amicus submission [PDF] to [CCT 23-10: The Citizen v Robert McBride](#): paragraph 37.

In Gods Name: [We Have Met the Enemy; It is Us: “Feeding the World's Hungry Millions: How It Will Mean Billions for U.S. Business”](#); which details the Aid Population Growth Escalator Ratchet Collapse Effect.

Living in a Lifeboat: ..... Our experience with Public Law 480 clearly reveals the answer. This was the law that moved billions of dollars worth of U.S. grain to food-short, population-long countries during the past two decades. When P. L. 480 first came into being, a headline in the business magazine Forbes (Paddock and Paddock 1970) revealed the power behind it: "Feeding the World's Hungry Millions: How It Will Mean Billions for U.S. Business."

And indeed it did. In the years 1960 to 1970 a total of \$7.9 billion was spent on the "Food for Peace" program, as P. L. 480 was called. During the years 1948 to 1970 an additional \$49.9 billion were extracted from American taxpayers to pay for other economic aid programs, some of which went for food and food-producing machinery. (This figure does not include military aid.) That P. L. 480 was a give-away program was concealed. Recipient countries went through the motions of paying for P. L. 480 food -with IOUs. In December 1973 the charade was brought to an end as far as India was concerned when the United States "forgave" India's \$3.2 billion debt (Anonymous 1974). Public announcement of the cancellation of the debt was delayed for two months; one wonders why.

"Famine-1975!" (Paddock and Paddock 1970) is one of the few publications that points out the commercial roots of this humanitarian attempt. Though all U.S. taxpayers lost by P. L. 480, special interest groups gained handsomely. Farmers benefited because they were not asked to contribute the grain -it was bought from them by the taxpayers. Besides the direct benefit there was the indirect effect of increasing demand and thus raising prices of farm products generally. The manufacturers of farm machinery, fertilizers, and pesticides benefited by the farmers extra efforts to grow more food. Grain elevators profited from storing the grain for varying lengths of time. Railroads made money hauling it to port, and shipping lines by carrying it overseas. Moreover, once the machinery for P. L. 480 was established, an immense bureaucracy had a vested interest in its continuance regardless of its merits.

Very little was ever heard of these selfish interests when P. L. 480 was defended in public. The emphasis was always on its humanitarian effects. The combination of multiple and relatively silent selfish interests with highly vocal humanitarian apologists

constitutes a powerful lobby for extracting money from taxpayers. Foreign aid has become a habit that can apparently survive in the absence of any known justification.

[..] The Ratchet Effect: [..] P2 may be said to represent a state of overpopulation, which becomes obvious upon the appearance of an "accident," e.g., a crop failure. If the "emergency" is not met by outside help, the population drops back to the "normal" level - the "carrying capacity" of the environment or even below. In the absence of population control by a sovereign, sooner or later the population grows to P2 again and the cycle repeats. The long-term population curve (Hardin 1966) is an irregularly fluctuating one, equilibrating more or less about the carrying capacity.

A demographic cycle of this sort obviously involves great suffering in the restrictive phase, but such a cycle is normal to any independent country with inadequate population control. The third century theologian Tertullian (Hardin 1969a) expressed what must have been the recognition of many wise men when he wrote: "The scourges of pestilence, famine, wars, and earthquakes have come to be regarded as a blessing to overcrowded nations, since they serve to prune away the luxuriant growth of the human race."

Only under a strong and farsighted sovereign -which theoretically could be the people themselves, democratically organized- can a population equilibrate at some set point below the carrying capacity, thus avoiding the pains normally caused by periodic and unavoidable disasters.

[..] But wise sovereigns seem not to exist in the poor world today.

The most anguishing problems are created by poor countries that are governed by rulers insufficiently wise and powerful. If such countries can draw on a world food bank in times of "emergency," ... the input of food from a food bank acts as the pawl of a ratchet, preventing the population from retracing its steps to a lower level. Reproduction pushes the population upward, inputs from the World Bank prevent its moving downward. Population size escalates, as does the absolute magnitude of "accidents" and "emergencies." The process is brought to an end only by the total collapse of the whole system, producing a catastrophe of scarcely imaginable proportions.

Such are the implications of the well-meant sharing of food in a world of irresponsible reproduction.

Mr. Hickel: More specifically with regard to Global Policy: [The Donors Dilemma: Aid in Reverse: How Poor Countries Develop Rich Countries](#), The Rules: [The Death of International Development](#), Kenyon Inst: [Rethinking Development: How the Aid Industry Misses the Point about Poverty -- Jason Hickel](#); Ruins: [Jason Hickel on AIDS in Africa](#); excerpts of which follow:

"There are a thousand hacking at the branches of evil to one who is striking at the root, and it may be that he who bestows the largest amount of money on the needy is doing the most by his mode of life to produce that misery which he strives in vain to relieve."

- Henry David Thoreau

The idea of international development aid lies at the heart of a tremendously successful PR campaign. The narrative we have been sold claims that aid has been effective at reducing global poverty. Here I will argue that there are three problems with this narrative. First, poverty is not disappearing, despite what we have been told to believe. Second, aid disbursements from rich countries to poor countries are dwarfed by wealth flows that run in the other direction, to the point where poor countries are effectively developing rich countries. Third, and perhaps most critically, aid is not actually designed to reduce poverty, but operates as a tool that the elites of rich countries leverage to extract wealth, resources, and political compliance. By eliding these problems, the aid paradigm prevents development practitioners – and the public – from understanding the real causes of poverty, and therefore precludes meaningful solutions.

With global poverty worsening for the past 35 years, it is clear that the development industry has failed at its most basic objective. Why? Because it depoliticizes the problem of poverty. Poverty is not caused primarily by domestic failures, as aid agencies would have us believe. Rather, it is the inevitable outcome of a global economic order that is designed to serve a small number of rich countries at the expense of most of the rest of the world. The reason aid to alleviate poverty is failing; is because AID agencies don't address the root causes of poverty.

The documents show that Dr. Gallo – [Dr. Horowitz summary](#) -- the subsequent 'discoverer' of AIDS; was a member of the group of scientists involved in the US-USSR Cold War Memorandum of Understanding to Trade Biological Weapons. Excerpts of aforementioned documents and the 1972 US-USSR Cold

War Memorandum of Understanding to Trade Biological Weapons; were subsequently included in the Ecology of Peace Amicus documentation submitted to the South African Constitutional Court [PDF]. Put simply the political necessity arguments were that if citizens or legal officials are opposed to military covert implementation of biological, chemical or other warfare programs; they should support root cause problem solving of the overpopulation and overconsumption root causes of subsequent military covert depopulation measures. After the Director of Public Prosecutions in the Western Cape refused to place the HC-CPD A696-04 Appeal on the roll for hearing in the Cape High Court; I informed them and the South African Governments 'Anti-War disclosure activist' MP: Patricia de Lille; that I would transfer the matter to the US Navy Judge Advocate General's office for safe record keeping. The telephone call notifying Mrs de Lille of the intended transfer of the documents to US Navy JAG resulted in [CT-CAS 1340/7/07](#) crimen injuria charges; where numerous – Iatrogenic biological warfare depopulation origins of AIDS – documents were once again submitted into the court record.

The following are excerpts of [EoP PoW Geneva Amendments submission to Swiss Federal Federal Council](#) documents: Submission [PDF] and Draft Referral [PDF]:

“The seventh principle of humanitarian action in armed conflict says: “Contextualization: Effective humanitarian action should encompass a comprehensive view of overall needs and of the impact of interventions. Encouraging respect for human rights and addressing the underlying causes of conflicts are essential elements.” - Dec 1994: Dept of the Army, Field Manual 100-23, Peace Operations.

All International Treaty's addressing war or peace issues, which do not address the underlying ecological overshoot and civilized patriarchy 'right to breed/consume with total disregard for ecological carrying capacity limits' root causes of conflict; should be deemed fraudulent and hence null and void; or appropriately amended.

Suggested Definitions:

***Breeding/Consumption Scarcity Combatant Parties to the Conflict:*** Any individual, organisation or nation whose procreation or consumption footprint violates its commons carrying capacity limits; should be designated as a 'breeding/consumption' scarcity combatant party to any local, regional, national or international resource scarcity related conflict.

***Breeding/Consumption Weapons of War:*** “We must all understand that the most potent weapons of war are the penis, the womb, and the ego. Therefore, if you cannot convince a group to control its population and consumption, to below carrying capacity limits; by discussion, debate, intelligent analysis, etc.; you must consider their action in using the penis and the womb to increase population; or using the ego to consume in violation of carrying capacity limits; an Act of War” – Amended version of quote by Judge Jason G. Brent, in *Humans: An Endangered Species*.

**Biological Warfare:** Biological Warfare is simply a symptom of breeding and consumption biological behaviours. The most dangerous root cause biological warfare ingredients are (a) male sperm; (b) female ovaries; and (c) ego-gender insecurity memplexes that have hijacked our brain-matter/minds; to engage in breeding war and consumption warfare behaviour; resulting in ecological overshoot, standing armies and finally military biological warfare.

**Chemical Warfare:** Chemical Warfare is simply a symptom of breeding and consumption chemical behaviours. The most dangerous root cause chemical warfare ingredients are (a) male sperm; (b) female ovaries; and (c) ego-gender insecurity memplexes that have hijacked our brain-matter/minds; to engage in breeding war and consumption warfare behaviour; resulting in ecological overshoot, standing armies and finally military chemical warfare.

**Fraud of UN 'Peace' and 'War' Treaties:** Any United Nations endorsed international treaty related to 'war' or 'peace' that ignores specifically addressing the breeding war and consumption war violation of carrying capacity limits root causes of ecological overshoot, which subsequently manifests as cannon fodder standing armies and their creation of military chemical, biological, technological, electronic and other related warfare ingredients, is based upon deception and fraud.

[..]

In the absence of committed support from Political Prisoners (invited and others), politicians and mainstream media to provide Presidents Obama and Putin problem solving backup to disclose Iatrogenic Aids – War-is-Peace treaty fraud – origins; the [Iatrogenic Origins of AIDS Disclosure] submission proposal should be discarded.

Simply enacting an EoP international social contract shall be more conducive towards accomplishing root cause problem solving of EoP egological and ecological literacy education for all; by providing the social contract jurisprudence for current and future Eco-Innocents to require Scarcity Combatant fundamentalists to either rehabilitate themselves or to volunteer themselves for elimination from the genepool.

War is Peace Treaty Fraud: Simplistically Military Biological Warfare is simply a form of culling and resource theft warfare between tribes living on a finite resource planet, managed by a 'flat earth social contract'. Put simply it is the result of an absence of an international Ecology of Peace social contract, requiring all the worlds tribes to breed and consume below carrying capacity limits. A peace or reconciliation treaty that ignores finite resource reality as the foundation for its procreation and consumption social contract duties imposed on all signatory parties; is not a sincere peace or reconciliation treaty, because it totally and utterly ignores the ecological finite resource reality foundation and citizen procreation and consumption duties required for peaceful co-existence amongst tribes. To the contrary, such a 'War is Peace' peace or reconciliation

treaty is simply a psycho-legal – soma-pacification, or Trojan horse bullshit the public relations psychological warfare – resource theft tactic.

## ***Re: Strength of Buck Stops Here Quality Marketing:***

When it comes to my small business – [SQWorms](#) -- I subscribe to a Radical Honoursty cultural version of Jacques Worth's [High Probability Selling](#). Put simply: the buck stops here facts and nothing but the facts. If they prefer products from corporations who engage in bullshit the public relations image management; then they are more than welcome to go and purchase their products from such corporations.

While I don't have many customers; I do have quality products; which I barter exchange to pay for rent and so on. It also means I don't have to waste my time with people who don't know what they want; attempting to convince them to purchase my SQWorms products. I can focus all my spare time on things that interest me.

When it comes to [Ecology of Peace NWO Future](#) marketing; various different types of marketing are being practiced:

- Overt: I follow my Radical Honoursty cultural High Probability Selling buck stops here marketing practices.
- Plausible Deniable Overt: EoP Applicants [[PDF](#)] are military officials who are and have been the plausible deniable overt public faces; for EoP Clerk or Acting Clerk Radical Ecology of Peace negotiations correspondence. They engage in a form of plausible deniable support for Radical Honoursty cultural High Probability Selling buck stops here marketing practices; and sometimes provide cryptic SIGINT events impossible coincidence twilight language marketing practices responses.
- Covert: These are military officials from FSB, NSA, Mossad, MI6, etc; who have been; and are engaged in an enquiry to determine the level of support amongst political, religious, corporate and media elite and citizens for the implementation of an Ecology of Peace international law social contract. As far as I am aware their enquiry is focused on determining whether an Ecology of Peace international law social contract can be relatively non-violently implemented; or whether military coercive measures shall be required to implement an EoP international law social contract; and if so: whether they have sufficient supporting military and civilian personnel to do so. They engage in military cryptic SIGINT events impossible coincidence twilight language marketing practices.
- Overt Interpretation of Covert Messages: If or when I notice a possible military cryptic SIGINT event occurring; that indicates that EoP enquiry related Covert Military Officials were involved in psychotronically manipulating such event; based upon Ecology of Peace enquiry motives; as former EoP Clerk; and current Acting Clerk; I provide an EoP Clerk interpretation of their possible military cryptic SIGINT message; which are updated at [MILED Clerk Notice](#).

Together we have been involved in co-creating the various different [legal, political and military blueprint options](#) in our enquiry to determine what the interest is for non-violently, honourably end cooperatively implementing an Ecology of Peace NWO Future; and if not; whether military coercive measures shall be required; and if so; whether there is sufficient prospects of success for such military coercive measures.

***Re: Weakness of Bullshit the Public Relations Quantity Marketing:***

“Han Dongfang was a leader of the Tiananmen protests; but speaking from experience he urged workers not to participate the violent demonstrations of 2008. “One of the lessons I learnt from 1989; was that the huge massive street action looks powerful; yes; but after a crackdown; everybody disappeared. We are human beings and we have fear in front of machine guns. Even a million people in the street continued for three days. That power is not really reliable.”- Han Dongfang; founder of the Beijing Workers Autonomous Federation; Excerpt: [Global Financial Meltdown](#).

Consider the massive street protests of Ukraine's Euromaidan allegedly opposing corruption. After massive street protests and a current civil war in Eastern Ukraine; all they did was replace one corrupt political oligarch acting as front manager for corporate oligarchs; with a new corrupt political corporate oligarch. [ Euromaidanpress: [Oligarchs good old buddies who own Ukraine](#); [Sunset and/or sunrise of the Ukrainian oligarchs](#); Vice: [Ukraine Rising: 01/02](#); [Ukraine Burning](#); [Last Days of the Revolution](#)]

The protestors fought and died for nothing; because they failed to (a) identify the root cause of their corporate; economic and political 'corruption' problem; (b) because their communication practices were not based upon buck stops here honesty root cause problem solving relationships with a truthseeking focus. The root cause of economic and political corruption is a [Masonic War is Peace](#) legal social contract that allows citizens to breed and consume with total disregard for ecological carrying capacity limits.

Consider also the battles of Blood River and Gallipoli; where quality of decision making enabled a minute group of individuals to win the battle against a force that massively outnumbered them.

If I had been the public relations or communications advisor for Volkswagen – long before their rape the planet greed resulted in [Inside Volkswagens Diesel Fraud](#) -- my advice would have been: Call all your company board of directors and managers together for a written referendum. Referendum Questions:: Do you want to work for a company whose primary focus is to provide its employees with (a) producing a cooperative employment atmosphere that provides enough resources for its employees simple but reasonable lifestyle; by producing a reliable sustainable durable product that earns its customers loyalty; or (b) a reputation and financial security Russian Roulette adventure that may or may not include prison: a dog eat dog cutthroat competition employment environment; where all employees are expected to be two faced hypocrites piranha cannibals; where those who are the most vicious two faced rape the planet cannibal hypocrites receive multi-million dollar bonuses, mansions and sports cars; and the others live a life of employment anxiety about whether they are able to pay their mortgage. See my EoP Acting Clerk correspondence to Lockheed Martin Board of Directors [[PDF](#)].

If they vote to work in an honourable sustainable cooperative corporation; I can help. If they vote to work in a [Wolf of Wall Street](#) corporation; with a few [fake parasite cultural capitalism charities](#) doing absolutely nothing about addressing the root causes of socio-economic and psycho-political misery; I honestly inform them that I am unable to help them; irrespective of how much money they are willing to pay me. My skills are buck stops here marketing based upon sincere cooperative root cause problem solving. If that is not what they want; then its best we don't waste each others time.

Put differently I prefer to provide my energy time and resources to working with a few individuals of quality; sharing our information with individuals who may or may not be interested to cooperate with us in our goals; than wasting my time deceiving my ego about my fake importance; resulting from thousands or millions of social media likes from people who have made no sincere effort to understand my physical or ideological product. I'd rather have the attention of one sincere committed problem solving general, colonel or gunnery sergeant; than 10 million likes from imbecile zombies pretending to be humans.

**Mike Beitiks, ICANN, IAP, MWeb, ISPA et al: 21 Oct Eco-Collapse NTE Only Problem Left Worth Solving Internet Blackout**

I found out about your I Will Not Do Nothing: [Beitiks for US Senate](#) campaign by reading Motherboard: [The NTE: Near-Term Extinction Movement Is Embracing the End Times](#); after doing a search for an NTE: Near Term Extinction article; as a result of my observation and analysis – a few examples below – working hypothesis conclusion interpretation that today's – 21 Oct aka 11, 10, 10, twin 10, Ten, NTE – large DDoS internet attack on US North East; may have been [psychotronically manipulated](#) by one or more military intelligenced agency; related to ongoing Ecology of Peace v Masonic War is Peace New World Order Negotiations:

***21 Oct Ecological Collapse Near Term Extinction Only Problem Left Worth Solving Internet Blackout:***

Blackout:

“No one could predict what is about to happen. Nobody is allowed into city hall cause the metal detectors arn't working. .. One hundred power plants shut down affecting fifty million people in two countries... An emergency has been declared in New York State. In a matter of seconds, fifty million people simply fall off the grid. Phone lines and water systems fail. Thousands of people are trapped in elevators and subways. ... It is August 14th, 2003... and the largest blackout in North American history causes six billion in damages. The official cause: overgrown trees on the power lines; but there is more to this story than troublesome trees. Just three days earlier on August 11th, someone, somewhere released one of the most damaging computer viruses ever written. Blaster. .... F-Secure Niko Hepannin... Did a computer virus somehow contribute to the Blackout.? ..... Bonnie: We could certainly shut down the United States critical infrastructure; I would assume within a day. Dedicatedly I would give it one week of research; one day to take it down. That means taking out the power grid; it means taking out the communication power; it means taking out probably the

military capacity of the United States; to function properly. We would probably go into a police state at that point. [Is that an exaggeration?]. No I don't think so. .... stormworm alone has infected at least fifty million computers; and it has not been used for anything; so there is this hovering literally perfect storm; of potential attack; so the concern is that if the storm worm has created all these compromised computers; and in themselves created this almost massive computer; and if very bad people have control of this; they may be able to do very bad things; on a very very big scale.” – [Web Warriors](#)

At the time of receiving MWeb legal departments email announcing that they were terminating their account with Clive Johnstone; I was busy with preliminary research to file a submission to ICANN: Internet Corporation for Assigned Names and Numbers; copied to International Association of Prosecutors [[PDF](#)]: General Counsel: Rasmus Wandall.

The EoP submission to ICANN submission was a suggestion to draft Internet Service Providers worldwide into cooperating to help notify their internet clients and the planets citizens of the importance of non-violently cooperating to help solve the Tragedy of the Commons inevitable nuclear war environmental collapse problem that's the only problem left that's worth solving; to implement an Ecology of Peace international law social contract:

“This tragic [— environmental collapse — at the end of which we are left without a home, having rendered Earth (our home planet) uninhabitable] outcome may not be unavoidable. And if it is not unavoidable, then that's about the only problem left that's worth solving. The solution can be almost arbitrarily expensive in both life and treasure. I would humbly suggest that it's worth all the money in the world, plus a few billion lives, because if a solution isn't found, then that treasure and those lives are forfeit anyway. A solution for avoiding the sixth stage must be found, but I don't know what that solution would look like.”

[EoP Axis Military Necessity Evacuation](#) is the military necessity mutual coercion last resort option of the Ecology of Peace NWO social contract options. It provides a legal blueprint for how to legally, militarily, politically and economically implement an Ecology of Peace international law social contract; to enable immediate orderly and humane deindustrialization and massive depopulation measures.

As noted in Ecology of Peace culture correspondence to [EoP Applicant Erik Prince and all US Political Parties](#), as EoP Acting Clerk I have advised the EoP Applicants; that in the absence of any EoP registered political party; American EoP Applicants shall not be voting for any of the

A citizen's signed *Ecology of Peace Fully Informed Consenting Agreement Responsible Freedom Declaration* will declare that the particular citizen understands and legally agrees to the following:

I hereby declare that I understand Responsible Freedom to mean:

1. Earth is not flat.
2. Resources are finite.
3. When humans breed or consume above [ecological carrying capacity limits](#), it results in [ecological overshoot](#), [resource depletion](#) and [resource conflict](#).
4. If individuals, families, tribes, races, religions, and/or nations want to (a) sustainably protect natural resources for future generations; and/or (b) reduce class, racial and/or religious local, national and international resource war conflict; and/or (c) enable honourable, transparent and humane international cooperative de-industrialization and depopulation of the planet to return to living in accordance to ecological carrying capacity limits; they should (d) cooperate to implement an [Ecology of Peace](#) international law social contract that restricts all the worlds citizens to breed and consume below ecological carrying capacity limits; to sustainably protect and conserve natural resources.

I hereby declare that I understand Honourable Reason & Logic Problem Solving Communication Policy Discourse values to mean:

7. If I am committed to honourable discourse; and I am giving someone else the benefit of the doubt that they are committed to honourable truthseeking discussion:
  - A. I clarify my preferences; to enable people being communicated to, to clearly know what I want; and whether they are willing to engage me in entering into an agreement; to help me get what I want; and reciprocally whether I can help them to get what they may want.
  - B. I always respond to verbal and written correspondence, with a sincere honest response. If I don't have time to respond; I inform them by when they can expect a response.
  - C. I sincerely and actively listen to the evidence from any individual, irrespective of their political ideology – i.e. right wing to left wing – religion, race or culture. Active listening means you verify that your interpretation of their statements is accurate; before concluding that you have ‘heard their argument’.
  - D. I focus on simplifying the issue discussed, using as much as possible descriptive words; as opposed to abstract concepts. If or where I include reference to abstract concepts; I am willing to define my meaning of that abstract concept within that circumstance.
  - E. I evaluate their argument based upon the evidence they present, not their race, religion or political ideology; etc.
  - F. If I am not convinced by the quality of their evidence on any particular issue; I am willing to agree to disagree on that particular issue, and cooperate if they are willing to engage in cooperative truthseeking to get better quality evidence; so that a stronger beyond reasonable doubt conclusion can be drawn on the particular issue in dispute.
  - G. I remain in the conversation until we find agreement; so as to support each other on other issues that we do agree upon, which are based upon more conclusive buck stops here evidence.
  - H. If or where sincere conflict arises in the discussion about the issue in dispute; I am committed to remaining in the conversation and finding a way to resolve the conflict, by allowing myself, them or both of us to get over our anger; as opposed to requiring them to suppress their anger for political correct ‘lets pretend we are getting along’ reasons. Once the emotional steam has been released through the conflict resolution process; both parties will find themselves in a more calm neutral space where the truthseeking conversation can proceed.
  - I. If either of us decide that we are unable to resolve the conflict between us:
    1. If none of us are employed by the State and/or legally obligated to help each other on the particular issue of preference in dispute; we honourably terminate discussions and approach others for help to get what we respectively want.
    2. If one or both of us are employed by the State and/or an organization or profession legally obligated to provide support to enable resolution of the particular requested preference; we cooperatively refer the matter to an honourable discourse truthseeking arbitrator for impartial dispute resolution.
  - J. If at any point during discussion; or arbitration proceedings; their evidence proves any of my evidence for any of my ideological, racial or religious working hypothesis theories or beliefs to be inaccurate; I love reason and logic more than my ego-identity and hence I am willing to publicly change my mind, on that particular subject and amend my ideological working hypothesis or belief with the new evidence provided; and if necessary to apologize.

Honourable Discourse principles are excerpted from: [EoP RH culture info](#).

Naturally anyone who refuses – without reasonable justification – to engage in aforementioned honourable discourse; is not remotely interested in peace, anti-war, or non-violent root cause problem solving of socio-economic resource war conflict; and depending on the circumstances; may consciously or unconsciously be providing their informed consent justification for the issue in dispute to be resolved by means of violence. Although honourable discourse would recommend that they be consciously made aware of how their refusal to engage in honourable discourse root cause problem solving of the issue in dispute; demonstrates their lack of commitment and sincerity to non-violent root cause problem solving.

### **Deception Communication Crimes of Aggression:**

#### ***Fully Informed Consensual Relating Violation Sentences:***

Individuals found guilty of negligently violating ‘Fully Informed Consenting Honourable Discourse’ as part of their inter-relating agreements; shall be required to attend and graduate from a ‘Fully Informed Consenting Honourable Discourse’ communication values class; where they would learn how to communicate their preferences and relate to others in accordance to Fully Informed Consenting Communication values; and sign a *Fully Informed Consenting Agreement Responsible Freedom Declaration* to graduate.

Individuals found guilty of intentionally violating ‘Fully Informed Consenting Honourable Discourse’ as part of their inter-relating agreements; shall be provided the opportunity to (a) choose their preferred method of state assisted suicide; (b) be granted the opportunity to say goodbye to their loved ones and (c) be eliminated from the planetary genepool by their preferred method of state assisted suicide.

### **Ecology of Peace New Economy Sustainability Definition:**

A Sustainable society practices Sustainable Procreation and Sustainable Natural Resource Utilization Behaviour; i.e. all of its citizens consume and procreate below carrying capacity. Sustainable Natural Resource Utilization Behaviour behaviour involves the utilization of renewable natural resources—water, cropland, pastureland, forests, and wildlife—exclusively, which can be depleted only at levels less than or equal to the levels at which they are replenished by Nature. The utilization of non-renewable natural resources (NNR's)—fossil fuels, metals, and minerals—at any level, is not sustainable<sup>1</sup>.

#### ***Carrying Capacity Sustainability: I=PAT Equation:***

For activities to be genuinely sustainable it must be possible for them to continue indefinitely. The impact of humanity on the environment and the demands that people place on the resources available on the planet can be summarised by what is known as the Ehrlich or IPAT equation,  $I=PAT$ . I = impact on the environment or demand for resources, P = population size, A = affluence and T = technology. The two most important conclusions deriving from this IPAT footprint<sup>2</sup> relationship are that: (i) the Earth can support only a limited number of people,

---

<sup>1</sup> Sustainability Defined, Chris Clugston, WakeUpAmerika

<sup>2</sup> EcoFootprint: The difference between the biocapacity and Ecological Footprint of a region or country. A biocapacity deficit occurs when the Footprint of a population exceeds the biocapacity of the area available to that population. If there is a regional or national biocapacity deficit, it means that the region is importing

at a certain level of affluence, in a sustainable manner; and (ii) Population and Consumption must be reduced to below carrying capacity.

***Carrying Capacity aka Biocapacity Limits:***

“The maximum number of individuals that can be supported sustainably by a given environment is known as its ‘carrying capacity’. Worldwide the total amount of biologically productive land and sea amounts to 12 billion global hectares (gha); or 1.8 gha each if divided by 6.7 billion each. Guerrilla Laws are drawn up in accordance with the proactive conservation policies of Bhutan<sup>3</sup>, who set aside 40% of their biologically productive to be returned to its natural state, for other species and wildlife conservation purposes; then that means that the total amount of biologically productive carrying capacity land available to humans is 60% of 12 billion; which amounts to 7.2 billion gha total; or 60% of 1.8 gha, which is 1 gha each. Population factor is relevant, because the more humans there are, the less biologically productive land there is for everyone else. For example:

***Biocapacity limits of 6.7, 3.5, 1 Billion, 500, 250 & 100 Million:***

7.2 billion global hectares of biologically productive land and water divided by (a) 6.7 billion humans, equals: 1.07 gha each; (b) 3.5 billion equals 2.05 gha each; (c) 1 billion equals 7.2 gha each; (d) 500 million equals 14.4 gha each; (e) 250 million equals 28.8 gha; (f) 100 million equals 72 gha each.

***Procreation Factor:***

As noted, the more people there are; the less biologically productive land there is available for everyone else. According to the research of Paul Murtaugh, the procreation factor that should be added by ecology footprint organisations to their Consumption footprint calculators, is 20 per child. [Each Child increases a parent’s cumulative consumption footprint by factor of 20<sup>4</sup>]

***Difference between Sustainable (Leaver Eco-Innocent) v Unsustainable (Taker Scarcity Combatant):***

An individual’s IPAT footprint is a result of: (A) Consumption Footprint multiplied by (B) Procreation Factor (Every child increases 20 Child Factor). If their IPAT footprint is below carrying capacity limits, they are an Eco-Innocent Leaver; if their IPAT footprint is above carrying capacity limits, they are a Scarcity Combatant Taker.

***Total Footprint = Consumption x Procreation Factor.***

biocapacity through trade or liquidating regional ecological assets. Global biocapacity deficit cannot be compensated through trade, and is overshoot.

<sup>3</sup> Bhutan Proactive Conservation: Bhutan is seen as a model for proactive conservation initiatives. The Kingdom has received international acclaim for its commitment to the maintenance of its biodiversity. This is reflected in the decision to maintain at least sixty percent of the land area under forest cover, to designate more than 40% of its territory as national parks, reserves and other protected areas, and most recently to identify a further nine percent of land area as biodiversity corridors linking the protected areas. Environmental conservation has been placed at the core of the nation's development strategy, the middle path. It is not treated as a sector but rather as a set of concerns that must be mainstreamed in Bhutan's overall approach to development planning and to be buttressed by the force of law. - "Parks of Bhutan". To work out your Consumption footprint; you will need to use a Consumption Footprint calculator. Current online footprint calculators: Global Footprint Network<sup>5</sup> (copy available at Earth Day<sup>6</sup>; Center for Sustainable Economy<sup>7</sup>; EcoCampus<sup>8</sup>. See more at Global Footprint's Application Standards<sup>9</sup>, where they detail how their calculators calculate Consumption footprints. The quiz will ask you various questions about your consumption habits, and provide you with a final consumption footprint in global hectares which is your 'consumption footprint'. For the purposes of this calculation; avoid footprint calculator quizzes that do not provide you with your final gha consumption footprint amount, such as for example: World Wildlife Fund's footprint calculator<sup>10</sup> or Stanford International Students<sup>11</sup> (which is excellent and has great detail; but does not provide you with a final footprint in gha terms). Multiply your consumption footprint gha amount by your Procreation Factor: the number of children you have procreated multiplied by 20. The total amount is your Total Footprint.
